Office—State Capitol, Springfield, Illinois.

LETTER OF TRANSMITTAL.

October 1, 1915.

Honorable Edward F. Dunne, Governor, State of Illinois, Springfield.

DEAR SIR: The Second Annual Report of the Illinois State Board of Nurse Examiners is presented to your Excellency with a renewed pledge of our loyalty to our Chief Executive and to the best interests of the State of Illinois.

We hope that the subject matter contained in this report of the work accomplished by your board, during the year 1914-15, will be a practical evidence of our desire to assist the nursing profession, in continuing to maintain the high standards it strives to uphold under every circumstance and under all conditions. We trust that this description of our activities will be of service in clarifying numerous points. Perhaps the important work of establishing reciprocity with several states having registration for nurses, as well as other achievements will prove of actual value to those who meet similar problems.

With the constant assurance of our wish to grow in usefulness to our profession and to our State, we are,

Most respectfully yours,

ADELAIDE MARY WALSH, R. N., *President.*

ANNA LOUISE TITTMAN, R. N., *Secretary and Treasurer.*

JULIA S. CHUBBUCK, R. N.

VELORA E. RANDEL, R. N.

KATHRYN A. CONWAY, R. N.

SECTION I.—MEETINGS.

Rules Governing Proceedings of Board. During the year ended September 30, 1915, the Illinois State Board of Nurse Examiners continued to operate under the following rules:

1. The annual general meeting shall be held during the month of January.
2. Members of the board shall not sign applications for registration.
3. The president shall preside at all meetings, or in her absence, the members present shall elect a chairman for that meeting.
4. The secretary shall send notice of all meetings to each member of the board, and perform such other duties as are usually carried out by that officer.
5. The treasurer shall receive all moneys of the board and keep a correct account thereof.
6. The order of business of each meeting shall be as follows:
 - (a) Reading of minutes of previous meeting.
 - (b) Reports of committees.
 - (c) Unfinished business.
 - (d) New Business.
 - (e) Miscellaneous.
7. These rules may be amended or added to at any meeting by a vote of three (3) members, provided that notice has been given in writing, of any changes thirty (30) days in advance of said meeting.

BOARD MEETINGS YEAR ENDED SEPTEMBER 30, 1915.

Aug. 10	Chicago.....	Business.....	Conway, Randel, Tittman, Walsh.
Sept. 17-18	do.....	do.....	Conway, Randel, Tittman, Walsh.

Sixteen meetings—13 Chicago, 2 Springfield, 1 Rockford.

Four examinations, 1 annual meeting, 11 others.

Eighty-three per cent attendance.

The foregoing tabulation shows that the board held 16 meetings during the year—4 of which included the examination of candidates

for State registration. Thirteen meetings were held in Chicago, two in Springfield and one in Rockford. The greatest number of meetings were held in Chicago to reduce the expense of transportation of members and candidates to the minimum. The average attendance of members was 83 per cent.

Meetings, as a rule, extended throughout the course of an entire day, examinations consuming two days. Routine business consisted largely of the consideration of detailed reports of inspection of training schools for nurses, the formulation of specific recommendations and suggestions to schools for nurses, the consideration and revision of examination questions prepared by the individual members, approving applications for registration, revoking and restoring certificates, deliberation of reciprocal relations with other states and the consideration of the board's financial status. Each of these phases of activity are given prominence and elaboration in the report which follows.

In all of its proceedings the board has been guided by the interpretation of Attorney General Patrick J. Lucey, of the provisions of the law governing the registration of nurses, approved June 30, 1913, in force July 1, 1913.

The cooperation of Governor Edward F. Dunne, his recognition of the importance and purpose of the board, his approval of results and his satisfaction in the harmonious relations are stimulating factors to the board to wholly and certainly fulfill its commission in an unbiased manner.

OFFICERS AND COMMITTEES.

At the annual meeting of the board, held in Rockford, January 6, 1915, Miss Adelaide Mary Walsh, R. N., Chicago, was reelected to the office of president for a second term and Miss Anna L. Tittman, R. N., Springfield, was reelected to serve a second term as secretary and treasurer.

During the year the following members served as chairmen of committees:

Miss Chubbuck, Reciprocity Committee.
Miss Conway, Complaints Committee.
Miss Conway, Special Resolutions Committee.
Miss Randel, Rules Committee.
Miss Randel, Examination Committee.

RESOLUTIONS.

In evidence of the great respect and esteem held for recently deceased leaders of the profession of nursing, the board laid aside its usual routine to adopt the following resolutions:

RESOLUTIONS ON DEATH OF MISS ISABEL McISAAC,
Late Superintendent Army Nurse Corps, U. S. A., late President American Nurses' Association.

WHEREAS, The death of Miss Isabel McIsaac has removed a woman of unusual integrity from the nursing world and one filling an unlimited field of usefulness and generosity;

WHEREAS, Her aspirations for the profession were such that her death will be deeply felt and her activities sorely missed by the general public; be it

Resolved, That we, the members of the Board of Nurse Examiners of the State of Illinois, deplore her early death and extend to her relatives and fellow workers our heartfelt sympathy in this hour of bereavement; be it
Resolved, That a copy be sent to her relatives and the American Journal of Nursing.

Passed by board October 9, 1914.

RESOLUTIONS ON DEATH OF MISS MARGARET EDITH JOHNSTONE.

Late Superintendent of Nurses, St. Luke's Hospital, Chicago.

WHEREAS, The death of Margaret Edith Johnstone has removed from the nursing world a woman of unusual integrity and one filling an unlimited field of usefulness and generosity;

WHEREAS, Her death will be deeply felt and her activities will be sorely missed by the general public; be it

Resolved, That we, the members of the Board of Nurse Examiners of the State of Illinois, deplore her early death, and extend to her relatives and fellow workers our heartfelt sympathy in this hour of bereavement; be it further

Resolved, That a copy of these resolutions be sent to her relatives, to the Alumnae Association of St. Luke's Hospital, to the American Journal of Nursing, to the Quarterly of the Illinois State Associations of Graduate Nurses, and also be spread upon the minutes of this board.

Passed by board February 4, 1915.

RESOLUTIONS ON DEATH OF SISTER MARY IGNATIUS.

Late Superintendent, Mercy Hospital.

WHEREAS, It has pleased the Almighty God to remove from the religious and nursing profession Sister Mary Ignatius, of the Mercy Order, at the age of 74 years, having entered the religious life at the age of 18 years, and having since served the public with unusual integrity and unlimited generosity in the nursing world, as well as having the distinction of being the first woman registered pharmacist in the State of Illinois, and furthermore having furnished a splendid influence by the strenuous efforts she put forth in behalf of a law governing the registration of nurses in the State of Illinois; therefore, be it

Resolved, That we, the members of the Board of Nurse Examiners of the State of Illinois, voice our deep grief and sense of loss occasioned by her death; be it further

Resolved, That we extend to her relatives and members of the religious order our heartfelt sympathy in this hour of bereavement; be it further

Resolved, That we furnish a copy of these resolutions to the family, members of the religious order, to the American Journal of Nursing and to the Quarterly of the Illinois State Association of Graduate Nurses, and a copy be spread upon the minutes of this board.

Passed by board February 4, 1915.

SECTION II.—EXAMINATIONS.

The board has continued to conduct examinations under the following rules adopted September 20, 1913:

RULES GOVERNING THE EXAMINATIONS OF THE ILLINOIS STATE BOARD OF NURSE EXAMINERS.

APPLICATIONS.

1. Application for registration under the provisions of "An Act to provide for the registration of nurses" shall be presented to the Illinois State Board of Nurse Examiners "in writing, and shall in every instance be accompanied by the examination fee of ten (\$10.00) dollars, together with satisfactory proof that the applicant is residing in the State of Illinois, is of good moral character, and is at least twenty-two (22) years of age at time of making application.*"

2. Nurses otherwise qualified shall be entitled to make application for registration as follows:

First—An applicant who "is a graduate of and has a diploma from an accredited school of nurses connected with a general hospital requiring a systematic course of at least three (3) years' training."

Second—"Application may be made by one who under the rules of an accredited school for nurses will be entitled to receive a diploma within three (3) months following the date of filing said application, but no certificate shall be issued to such applicant until he or she has received such diploma and has satisfactorily passed the prescribed examination."

Third—Applicants "who at time of application shall have graduated and received a diploma from a school for nurses connected with any hospital of good standing, requiring a systematic course of at least two (2) years' training, and shall have obtained in any hospital of good standing, one (1) year's additional training in subjects not adequately taught in the school for nurses from which they graduated."

Fourth—Applicants "who at time of application shall have graduated and received a diploma from a school for nurses connected with any hospital of good standing, requiring a systematic course of at least two (2) years' training," and shall have filed application prior to December 31, 1913.

3. Application blanks may be procured from the secretary of the board upon application. Printed instructions will be found on each blank and all questions must be answered, all instructions conformed to, and all statements filled out in the applicant's own handwriting, under oath, and be properly attested. Applications must be received by the secretary of the board at least fifteen (15) days prior to the examination.

4. In no case will a person be admitted to examination who has not properly attended to the preliminary steps.

5. If, for any justifiable reason, the applicant is unable to take the examination at the appointed time, upon due notice of the fact to the secretary, he may be transferred to the next session, without reapplication.

6. In all cases the application papers will be retained by the secretary of the board. The fee will not be returned if the applicant, having entered upon the examination, is found not eligible for registration, but said applicant may be subsequently examined without fee.

*Quotation marks enclose portion of an act entitled, "An Act to provide for the registration of nurses, and to repeal a certain act therein named." Approved June 30, 1913; in force July 1, 1913.

7. Each applicant will be sent by the secretary, a card of admission to the examination.

EXAMINATION.

1. The Illinois State Board of Nurse Examiners shall meet not less frequently than twice a year for the purpose of holding examinations for nurses who wish to be known as registered nurses.

"Notices stating the time and place for the holding of such meetings shall be published in at least one (1) newspaper of general circulation in each of the cities of Chicago and Springfield, and also in at least one (1) journal devoted to the interests of professional nursing, at least thirty (30) days and not more than sixty (60) days before the date set for holding the meeting, such written notice of said examinations shall also be sent by mail to every person whose application for examination has been approved and is on file," and also to every school for nurses of good standing, in Illinois, at least thirty (30) days prior to the meeting.

2. At the opening of the examination each applicant shall present with the card of admission, his or her diploma from the school for nurses from which he or she has graduated. Each applicant will be furnished with an envelope containing a numbered card upon which the applicant shall write his or her name, sealing the envelope and using the number on the upper right hand corner of all examination papers. The sealed envelope containing the signed card will, at the conclusion of the written examination, be handed to the secretary of the board, and shall not be opened until all the papers are graded.

3. Applicants are expected to be promptly on time at the place of the examination.

4. Examinations may be written or may, in part, consist of practical demonstrations, according to the discretion of the examining members of the board. All examinations shall be conducted by at least three (3) members of the board, not graduates of the same school.

5. All written examinations shall be on paper furnished by the board. Answers are to be written in the order of the questions and the questions not copied. Papers containing the questions must be returned, intact, with the answers.

6. All applicants detected in trying to give or obtain aid shall be dismissed from the examination, and their papers for the entire work rejected.

7. Applicants will be required to pass a grade of 70 per cent in both theoretical and practical parts of the examination. If applicants fall below the 70 per cent mark in any subject they will be given credit for all subjects passed in and will be required to appear again for examination only in those subjects in which they have failed.

8. No examination papers will be returned to the applicant.

9. The examining members of the board shall begin their inspection of the answers submitted by the candidates immediately after the close of the examination, and shall complete the same with promptness and dispatch.

CERTIFICATES.

1. Applicants who have successfully passed the requirements will be given a certificate of registration signed by each member of the board, attested by the president and secretary and stamped with the official seal.

2. When certificates are sent by mail, they must be registered. If not mailed, a receipt for the same shall be given. In both cases the receipt must be filed with the application. Any person who has received such a certificate shall be styled and known as a registered nurse, and shall be entitled to append the letters R. N. to the name of such person.

3. "Each person to whom such certificate shall be issued, or any renewal thereof, shall, within ninety (90) days thereafter cause the same to be presented at the office of the county clerk of the county in which such person resided at the time of filing the application and cause said certificate or any renewal thereof to be registered. The county clerk shall charge twenty-five (25) cents for registering such certificate. Failure, or the refusal on the part of any person obtaining a certificate for registration as a nurse, or any renewal thereof, to register the same with the county clerk of the county in which said person resided at the time of application within ninety (90) days

from issue of the same shall work a revocation of said certificate; Provided, however, that a certificate revoked for failure or refusal of its holder to register, the same may be restored upon application to the board and the payment of a fee of two (\$2.00) dollars for the issuance of a new certificate. Each person so registered as a nurse shall be prepared, when requested in connection with work as a nurse, to exhibit such certificate of registration or a certified copy thereof."

4. "The board, upon written application and upon the payment of ten (\$10.00) dollars as a registration fee, may issue a certificate without examination of the applicant who shall have been registered as a registered nurse under the laws of another State having requirements which in the opinion of a majority of the members of said board, subject to the approval of the Attorney General, are of equal or higher standard than those of the State of Illinois for the registration of nurses."

These rules are subject to revision or amendment by the board.

SUBJECTS OF EXAMINATION.

1. Anatomy and Physiology.
2. Materia Medica.
3. Dietetics.
4. Nervous and Mental Nursing.
5. Elementary Urinalysis.
6. Hygiene and Bacteriology.
7. Ethics.
8. Contagious and Children's Diseases.
9. Obstetrical Nursing.
10. Gynaecological Nursing.
11. Medical Nursing.
12. Surgical Nursing.

Male nurses will be examined in Genito-urinary work instead of Gynaecological and Obstetrical Nursing.

RULES.

(Given to candidates at examination.)

1. The number upon the enclosed card is to be used on the right-hand upper corner of each paper handed in. A paper bearing your name will be discarded.

2. Write with ink.

3. Use one side of paper only.

4. Number your answers in accordance with the numbers of the questions.

5. After writing your name according to directions upon the card, enclose same in envelope, seal and place on desk for collection.

6. Three papers will be presented each of the two mornings and afternoons of this examination.

7. The nurse who receives or gives any information regarding the answers to the questions placed before her will be dismissed from further examination.

8. Have no books or papers on desk other than papers being written.

The Illinois State Civil Service Commission, after an investigation of examination methods used by the various examining boards, pronounced the methods of the Board of Nurse Examiners as very near the fairest, safest, most definitely systematized and most economical.

During the coming year the board will hold five examinations—one every three months—October, January, April and July in Chicago, and one in July in Springfield.

Rejected Applications. It was necessary for the board to reject only fifteen applications for registration during the year. In each of these, the cause was failure to meet the requirement of graduation from a three years accredited course of training. The schools of graduation were

located out-of-state and the board assumed the responsibility of informing the school wherein its requirements and standards were inadequate. One school raised its requirements accordingly and the rejected graduate reapplied for registration and was accepted.

Attendance. The following tables give a concise account of the attendance at examinations and the number and subjects of failure:

ATTENDANCE AT EXAMINATIONS YEAR ENDED SEPTEMBER 30, 1915.

Date.	Graduates writing.	Student nurses writing.	Former failures writing.	Total number writing.	Total number failures.	Incomplete examination.	Total number successful.	Graduates successful.	Student nurses successful.	Per cent successful.

SPECIMEN OF QUESTIONS USED DURING YEAR ENDED SEPTEMBER 30, 1915.

ANATOMY AND PHYSIOLOGY.

October 21-22, 1914.

(Answer five only of the seven questions given.)

1. Give the subdivisions of the spine and the number of vertebrae of each.
2. (a) What three bones form the pelvic girdle?
(b) What bones form the shoulder girdle?
3. Where is the popliteal space?
4. (a) Name the respiratory organs.
(b) What is the action of oxygen upon the blood?
5. What is the pericardium; the pleurae; the peritoneum?
6. What is your understanding of the relation of the muscles to the nerves?
7. (a) What form of muscle fibres is found in the heart?
(b) Name the four (4) chambers of the heart.
(c) What is the aorta?
(d) What blood vessels carry the return-flow of blood to the heart?
(Do not sign your name.)

BACTERIOLOGY AND HYGIENE.

April 14-15, 1915.

(Answer five only of the seven questions given.)

1. What is the difference between ordinary cleanliness and what is called surgical cleanliness?
2. Why should the room of a malaria patient be screened?
3. (a) Is night air dangerous?
(b) Give one good reason for the view formerly held.
4. State what action you would take in the following case: You are called to a child suffering with measles. You find that his eighteen-year-old brother, who is a street laborer, is home with a cough, caused by the dust inhaled from the street. On the morning of your arrival he strained his chest while coughing, and you find he is very weak from loss of blood. One of the members of the family works for a nearby dairy and milk is supplied to the family free of charge.
5. Define:
 - (a) Pathogenic,
 - (b) Pyogenic,
 - (c) Pasteurization,
 - (d) Spores,
 - (e) Bacteria.
6. In what branch of work is a nurse's relation to Bacteriology most emphasized, and why?
7. What is meant by
 - (a) "Positive Culture?"
 - (b) "Culture Media?"

(Do not sign your name.)

CHILDREN AND CONTAGIOUS NURSING.

January 12-13, 1915.

(Answer five only of the seven questions given.)

1. What does loss of weight or failure to gain in weight, though there are no symptoms of disease, usually indicate?
2. Mention points to be remembered in the care of gonorrheal infection of the eye?
3. What are adenoids, and why is it necessary that they be recognized early?
4. (a) What nursing care is necessary in chicken-pox?
(b) What degree of isolation and disinfection is necessary in this disease?
5. If a child had a vaginal discharge what would you suspect and do?
6. (a) What are the most common causes of convulsions in children?
(b) What would you do if there was no doctor near?
7. What are the special points to be observed in the nursing of meningitis?

(Do not sign your name.)

DIETETICS.

July 14-15, 1915.

(Answer five only of the seven questions given.)

1. Give the value of each fundamental food principle.
2. In modification of cows milk for infants use, what would you do to reduce the proteid? Increase the fat? Increase the carbohydrates?
3. Name three diseases requiring a special diet and outline one meal for each disease.
4. (a) How are meats cooked to retain the juices?
(b) To extract the juices?
5. Name four secretions that aid digestion, and state where each comes in contact with the food.
6. (a) Describe proper diet for a nursing mother or wet nurse.
(b) Outline diet for constipation.
7. (a) Describe method of feeding, character and quantity of food for premature infant.
(b) Under what conditions would you awaken a sleeping patient to give him food?

(Do not sign your name.)

ETHICS.

April 14-15, 1915.

(Answer five only of the seven questions given.)

1. Do you consider that a graduate special nurse may sometimes be too insistent in obtaining daily hours off-duty? Explain your answer.
2. If a new born infant in your care developed ophthalmia neonatorum would you discuss the case or the possibility of a specific origin with anyone? Explain your answer.
3. When called to care for a special case as a graduate in a hospital, what would be your procedure in respect to the hospital management, especially if the hospital was new to you?
4. What attitude should a graduate special in a hospital assume toward a pupil nurse?
5. (a) When would you consider it good nursing to improvise nursing equipment?
(b) Give an example and describe something you could improvise.
6. What can you say of the propriety of certain street clothes and impropriety of others a nurse may wear to a private case or on a visit to a prospective obstetrical case?
7. What may a young woman gain in preparation for life other than the means of a livelihood by training in a school for nurses of proper standing?

(Do not sign your name.)

GYNAECOLOGICAL NURSING.

April 14-15, 1915.

(Answer any four of the first five questions)

and

(Answer one of the last two questions.)

1. Give points in the prophylactic care of cystitis.
2. Name three uses of vaginal douches and an example of each.
3. (a) Explain the process of menstruation.
(b) Give technical terms for the beginning and close of the menstrual period.
4. Give complete preparation for the removal of perineal stitches.
5. In what gynaecological position would you place a patient for,
(a) Abdominal Section?
(b) Operation on Perinaeum?
6. Write a paragraph on venereal diseases and their relation to Gynaecology, mentioning particularly points in prophylaxis and nursing care.
7. Write a paragraph on the preparation you would make in a private home for a perinaeorrhaphy.

(Do not sign your name.)

MATERIA MEDICA.

July 14-15, 1915.

(Answer five only of the seven questions given.)

1. Name two and give doses of,
(a) Cardiac Stimulants,
(b) Astringents,
(c) Diaphoretics.
2. Differentiate between a decoction and an infusion.
3. In what manner does the administration of the Harrison narcotic law apply to nurses?
4. Give symptoms of an overdose of strychnine.
5. Name four ways in which preparations of mercury may be administered.
6. Give table of apothecaries weight.
7. Give the adult dose of the following drugs:
(a) Atropine Sulph;
(b) Potassium Iodide,
(c) Tr. Digitalis,
(d) Chloral Hydrate.

MEDICAL NURSING.

July 14-15, 1915.

(Answer five only of the seven questions given.)

1. (a) Give one formula for a nutritive enema.
(b) State method of administering same.
2. (a) Name one disease where a physician might order a sweat bath.
(b) State method of giving same.
3. Give nursing measures for the relief of:
 - (a) Insomnia,
 - (b) Emesis,
 - (c) Singultus,
 - (d) Epistaxis.
4. Name four important points to be observed in nursing a case of typhoid fever.
5. (a) Give approximate normal blood pressure of male and female patients.
(b) What would be indicated by a high blood pressure?
What would be indicated by a low blood pressure?
6. What points are to be observed in applying:
 - (a) Mustard plaster?
 - (b) Turpentine stupes?
7. What points are to be observed in applying:
 - (a) Ice coils?
 - (b) Steam inhalations?

(Do not sign your name.)

NERVOUS AND MENTAL NURSING.

July 14-15, 1915.

(Answer five only of the seven questions given.)

1. (a) Name several common diseases of the brain, spinal cord and nerves.
(b) Describe the details of administering one hydrotherapeutic measure commonly used in the treatment of the mentally ill.
2. Give the nursing care of chorea.
3. (a) Name some of the benefits that the mentally ill may derive from exercise.
(b) What precautions should be observed when introducing exercise into the treatment of the mentally ill?
4. (a) What is Cretinism?
(b) What are hallucinations?
5. What are some of the precautions you would take in order that self-inflicted wounds among mentally ill patients may be avoided?
6. State several reasons why a nurse should carefully observe the feeding of the mentally ill.
7. What can you say of teaching occupations to the mentally ill?

(Do not sign your name.)

OBSTETRICAL NURSING.

July 14-15, 1915.

(Answer five only of the seven questions given.)

1. What is the difference in the meaning of abortion, miscarriage and premature labor?
2. What would you do should your patient have post partum hemorrhage and you were alone with her?
3. (a) What is average duration of pregnancy?
(b) What is one method of calculating the date of labor?
4. If a woman asked your advice as to what she should, and should not do, during pregnancy, what would you tell her?
5. (a) If a child does not at once begin to breathe at birth, what must be done?
(b) What should the nurse be ready to do as soon as the head is born?
6. What precaution must be taken when giving a douche after labor?
7. How should massage be given to the breasts?

(Do not sign your name.)

SURGICAL NURSING.

July 14-15, 1915.

(Answer five only of the seven questions given.)

1. (a) How would you determine whether a burn is of the first, second or third degree?
(b) How would you remove the clothing of a burned patient? Why?
2. Give nursing care of hemorrhage following a tonsillectomy.
3. Give technique for intravenous infusion.
4. Give technique for preliminary preparation and performance of a clean surgical dressing.
5. What observations should be made and recorded regarding the excreta after a surgical operation, and why?
6. (a) What is a "bed cradle" and how may one be improvised?
(b) What preparation should be made by the nurse when a Plaster of Paris bandage is to be applied?
7. Define: Cyanosis; Thrombosis; Granulation tissue; Cicatrical tissue; Asepsis.

(Do not sign your name.)

URINALYSIS.

April 14-15, 1915.

(Answer five only of the seven questions given.)

1. (a) What is the specific gravity of normal urine?
(b) Give technique for obtaining same.
(c) Is the specific gravity increased or diminished in the following conditions:
 1. Diabetes.
 2. Hysteria and other diseases of the nervous system.
 3. Chronic Nephritis.
 4. Febrile diseases.
2. Name three (3) abnormal constituents of the urine and name the diseases in which these products occur.
3. (a) Give one test for detecting the presence of albumen in the urine.
(b) One test for sugar.
4. Give the reaction of normal urine and method of obtaining same.
5. Define:
 - (a) Suppression of urine.
 - (b) Retention of urine.
 - (c) Incontinence of urine.
 - (d) Anuria.
 - (e) Haematuria.
6. (a) What is the normal capacity of the bladder?
(b) What is the average quantity voided in 24 hours?
7. (a) How would you collect a 24 hour specimen of urine?
(b) Why is it necessary to sterilize bed pan, etc.?
(c) Why examine urine before and after operation?

(Do not sign your name.)

SECTION III.—RECIPROCITY.

Section 7 of law governing registration of nurses reads: * * * *"Provided, however, the board upon written application and upon the payment of \$10.00 as a registration fee, may issue a certificate without examination of the applicant who shall have been registered as a registered nurse under the law of another state having requirements which in the opinion of a majority of the members of said board, subject to the approval of the Attorney General, are of equal or higher standard than those of the State of Illinois for registration of nurses."*

At the close of the year September 30, 1914, the status of reciprocity between Illinois and other states in the matter of registration of nurses was confined to an unlimited relation of reciprocity with the states of Indiana and Wisconsin. Reciprocity had been extended to Maryland and refused because the Maryland law contained no reciprocity clause. Reciprocity had been extended to the states of California and Minnesota, but the matter remained pending the decision of the boards of these states for some time. Many other laws had been carefully investigated and definitely rejected, until amended to meet a standard equivalent to or higher than that of the Illinois law.

Considerable progress has been made in the development of this matter during the past year, as is exhibited in the accompanying tabulation. Illinois now enjoys reciprocity in some form with twenty-one states. The reciprocity committee did careful work in continuing their study of the laws of the forty-two states having nurse registration. Three of these laws (Maine, Ohio and North Dakota) were passed during this year. The laws of Pennsylvania, Nebraska, Colorado and other states were amended during the year and these amendments were considered. States having no laws are, Alabama, Arizona, Nevada, New Mexico, South Carolina and South Dakota. Several states are now operating under waivers, at the expiration of which, reciprocity may be definitely established with Illinois. These states include Ohio, Nebraska and North Dakota.

On November 13, 1914, *California* submitted official acceptance of proposed unlimited reciprocity with Illinois.

On June 17, 1915, *Minnesota* submitted official acceptance of proposed unlimited reciprocity with Illinois.

On November 16, 1914, Illinois voted to extend unlimited reciprocity to *Iowa*. The Attorney General approved. Iowa did not approve unlimited reciprocity, but signified a desire for reciprocity with Illinois on a limited basis, limited to those who had passed an examination in either state. Illinois appealed for the reconsideration of Iowa for unlimited reciprocity, basing its appeal on the following points:

1. Equality of standards of the two laws.
2. A waiver in Illinois' former law allowing registration without examination and a six months waiver in the present law, allowing regis-

tration by examination to two years course graduates. Iowa and other states have had similar waivers.

3. Subjects of examination in the two states differ. Passing grades differ.

4. Illinois desires to maintain the high standard without working a hardship on those registering under waivers.

On January 5-6, 1915, Iowa reported that it could not reconsider. It had established reciprocity on the basis of examination with Indiana and Wisconsin.

On April 5, 1915, Illinois approved limited reciprocity with Iowa, on the following articles of agreement:

Article 1. The State Board of Health of Iowa and the State Board of Nurse Examiners of Illinois hereby agree to reciprocate in the matters of Nurses' Certificates upon the following basis:

Each of said boards agrees to recognize nurses' certificates issued by the other upon the basis of a written and oral examination in the following subjects: Elementary Hygiene, Anatomy, Physiology, Materia Medica, Dietetics, Practical Nursing, Medical and Surgical Nursing, Obstetrics, Nursing of Children, and the rules and regulations of the State Board of Health relating to infectious diseases and quarantine. The subjects herein enumerated may be arranged by either board to suit its convenience, provided the ratings for said examination are based upon the scale of 100 and that a general average of 75 per cent correct answers be required to pass. The date of issuance of said certificates shall not be material to this agreement, provided such certificates were granted upon a successful examination in the subjects mentioned herein, and provided that said examination was conducted in accordance with the statutory requirements in force in either state or under the rules and regulations of either board prior to the enactment of the statutory requirements, and provided still further that the applicant for reciprocal registration comply with the statutory requirements in the state to which he makes application.

Article 2. This agreement shall apply only to original certificates issued upon examination by either board party to this agreement, and to registered nurses in good standing with their respective board.

Article 3. The credentials of applicants for certificate in either state under the provisions of this agreement shall be certified by the secretary of the board issuing the original certificate.

Article 4. The certificate fee for reciprocal registration in either state under the provisions of this agreement shall be ten dollars (\$10.00), payable by the applicant.

Article 5. The foregoing articles of agreement executed in duplicate shall be in full force and effect on and after the date approved by both boards, and may be cancelled by either board at the expiration of thirty (30) days after written notice thereof by either board party thereto.

Approved and signed by authority of the Iowa State Board of Health, at Des Moines, Iowa, this 6th day of July, 1915.

(Signed) WALTER L. BURREING, *President*.

GUILFORD H. SUMNER, *Secretary*.

Approved and signed by authority of the State Board of Nurse Examiners of Illinois, at Springfield, Illinois, this 20th day of May, 1915.

(Signed) ADELAIDE MARY WALSH, R. N., *President*.

[SEAL.]

ANNA L. TITTMAN, R. N., *Secretary*.

Attorney General Patrick J. Lucey attached approval June 9, 1915.

On April 5, 1915, the board voted to extend unlimited reciprocity to the following states: Delaware, Idaho, North Carolina and Rhode Island. On April 19, 1915, Attorney General Patrick J. Lucey approved this action.

On April 23, 1915, North Carolina entered upon unlimited reciprocity with Illinois.

On July 7, 1915, Delaware entered upon unlimited reciprocity with Illinois.

The states of Idaho and Rhode Island have sent no official recognition of the relation extended by Illinois.

Illinois found that all other states had laws with lower standards than the Illinois law and accordingly notified these states that reciprocity could not be established on a mutual basis. Although Illinois may not reciprocate, the following states are willing to extend registration without examination to candidates, registered in Illinois, who have certain special requirements of training: Colorado, District of Columbia, Kansas and Virginia. The following states are willing to extend registration to candidates who registered under any condition in Illinois: Florida, Kentucky, Mississippi, Missouri, Nebraska, New Hampshire, Oklahoma, Oregon, Pennsylvania, Wyoming.

RECIPROCAL STATUS OF ILLINOIS STATE REGISTRATION OF NURSES SEPTEMBER 30, 1915.

States having laws governing the registration of nurses.	Unlimited relation extended to Illinois, Illinois reciprocating.	Limited relation extended to Illinois Registered Nurses who registered by examination, Illinois reciprocating on like basis.	Relation extended to Illinois Registered Nurses meeting specified requirements, Illinois not reciprocating.	Unlimited relation extended to Illinois, Illinois not reciprocating.

Total issued..... 648

* Each person to whom such certificate shall be issued, or any renewal thereof as hereinafter provided; shall, within ninety (90) days thereafter cause the same to be presented at the office of the county clerk of the county in which such person resided at the time of filing the application and cause said certificate or any renewal thereof to be registered. The county clerk shall charge twenty-five (25) cents for registering such certificate. Failure, or refusal on the part of any person obtaining a certificate for registration as a nurse, or any renewal thereof, to register the same with the county clerk of the county in which said person resided at the time of application, within ninety (90) days from issue of the same, shall work a revocation of said certificate. *Provided, however,* that a certificate revoked for failure or refusal of its holder to register the same may be restored upon application to the board and the payment of a fee of two dollars for the issuance of a new certificate. Each person so registered as a nurse shall be prepared, when requested, in connection with work as a nurse, to exhibit such certificate of registration or a certified copy thereof.

† California, 4; Iowa, 2; Wisconsin, 10.

CERTIFICATES ISSUED BY EXAMINATION.

Of certificates issued by examination, the Nurse Training Schools represented by candidates were as follows:

Fifty-nine accredited schools of Illinois.

Five non-accredited schools of Illinois.*

One non-accredited out of State school.*

Six with adequate post-graduate training.†

(Original Training, 3 Illinois; 3 out of State.)†

(Post-graduate Training, 5 Illinois; 1 out of State.)†

Eleven accredited out of State schools meeting Illinois requirements.

REVOCATION AND RESTORATION OF CERTIFICATES.

In view of the board's duty to promulgate the provisions of section 4 of the law, a precaution was taken in sending a marked copy of the law accompanying each certificate, calling attention to the point of failure to have recorded as a cause for revocation. The board during the past year has accentuated this precaution by making announcement of this provision at all examinations; also, by especially calling attention of candidates to the provision when notifying them of the results of examination, and, furthermore, by enclosing a notice with the certificate giving conditions, last date for recordation and name of county of recordation.

It was necessary to revoke on April 5, 1915, and July 6, 1915, a total of 164 certificates of registration under section 4. An opinion was obtained from the Attorney General regarding the authority of the board for revocation of certificates recorded within 90 days of issue, in other county than the county in which the applicant resided at the time of filing application. The opinion follows in part:

June 10, 1915.

The act does not authorize the registration of a certificate with the county clerk of any county, except the county in which said person resided at time of filing application. The statute plainly says that the failure to register certificate of registration as a nurse in the county in which applicant resided at the time of application within 90 days from the issue of the same, shall work a revocation of certificate.

Very respectfully,

P. J. LUCEY, *Attorney General.*

The board has restored 118 certificates under section 4.

REVOCATION OF CERTIFICATES ISSUED UNDER FORMER STATUTE.

During this year, the board made a complete survey of the recordation of certificates issued under the former statute, covering a period from September, 1908, to June 30, 1913. It was found that 983 had failed to comply with the provision in the former statute that certificates be recorded within 90 days of issue, in the county in which the applicant resided at time of filing application. Since there was no provision for

* Applications accepted under waiver section 8, prior to December 31, 1913.

† Accepted under section 8.

revocation for failure to have recorded in the former statute, as there is in the present, the following questions presented themselves to the board:

How may these certificates become recorded, the 90 days for recordation having elapsed?

May the board revoke these certificates, since the board provisionally accedes to the business of the former board?

May the board revoke these with the intention of restoring them, that proper recordation may result?

May certificates be legally recorded now, without revocation?

The opinion of the Attorney General was solicited and accepted. This opinion follows in part:

August 24, 1915.

* * * From a consideration of the whole act of 1913, it is my opinion that the present board cannot revoke licenses issued prior to July 1, 1913, for a failure upon the part of the holder thereof to have the same recorded. It does not clearly appear why such certificates should be recorded. Section 4 above referred to requires certificates issued under the act of 1913 to be recorded in the county in which such person resided at the time of filing the application. There is no provision requiring such certificate to be recorded in any county in which the holder thereof may afterwards reside or practice as a registered nurse. Those persons who were licensed under the act of 1907 and failed to have their certificate recorded occupy a like position to those who have been licensed under the act of 1913 and had their certificates duly recorded and thereafter took up their residence in another county. Just what the intention of the Legislature was, relative to the recording of such certificates, I am not at liberty to speculate on, but if it was the intention of the Legislature to give the present board power to revoke certificates issued prior to July 1, 1913, for a failure on the part of the holders of those certificates to have the same recorded, it has apparently failed to express such intention in the act of 1913.

Very respectfully,

P. J. LUCEY, *Attorney General*.

SECTION V.—SCHOOL FOR NURSES.

SURVEY OF ACCREDITED SCHOOLS FOR NURSES AND SCHOOLS PENDING ACCREDITING IN ILLINOIS.

Schools, location, superintendent.	Date organized.	Hospital capacity (beds).	Number pupils.	Number graduates on staff.	Total graduates to date.	Graduates in 1915.	Graduates registered in 1915.	Length of course.	Affiliations.	Special features.	Status.
Amey Lewis Hospital School for Nurses, Carbondale, Ill., Martha Crane, R. N.....	1914	35	5	2	3 yrs.	Obtain practice, 6 mos. Children and obstetrics, Washington University, St. Louis; theory dietetics, Carbondale Normal.	Fair reference library. Recreation room. Nurses reside in hospital.	April 5, 1915, deferred first accrediting. Recommendations.
Anna State Hospital School for Nurses, Anna, Ill., Elizabeth Donovan.....	1906	1,700	38	18	47	8	2 yrs.	Obtain 2 mos. surgical St. Mary's, Cairo.	Special hospital for insane. 3 mos. attendant's course.	April 5, 1915, continued accredited 2 yrs. course to April 1, 1916. Recommendations.
Annie Durand Hosp. School for Nurses, 637 S. Wood St., Chicago Elizabeth Horn, R. N.	1913	60	3	10	25	12	3 mos.	Give to Washington Boul., St. Joseph's, Chicago.	Affiliation and P. G. course only. Infectious cases only. Nurses given Schick test.	May 20, 1915, first accrediting to July 1, 1916, 3 mos. course.
Augustana Hospital School for Nurses, 2043 Cleveland Av., Chicago, Anna M. Jorgensen, R. N.....	1894	200	90	5	345	25	24	3 yrs.	Well equipped class room. Contemplating new home for nurses. Good Tr. Sch. records.	Sept. 17, 1915, continued accredited 3 yrs. course to Oct. 1, 1916.
Aurora Hospital School for Nurses, Aurora, Ill., Rosabel King, R. N.....	1893	34	16	2	41	3 yrs.	New hospital of 100 beds under construction.	Formerly 2 yrs. 3 mos. credit. Nov. 11, 1914, deferred continuation 3 yr. course accrediting. Feb. 4, 1915, deferred. Recommendations.

Blessing Hospital School for Nurses, Quincy, Ill., Florence Burt, R. N. (Minn. and Iowa)	1891	70	24	3	104	5	9	3 yrs.	Very good home for nurses. Excellent Tr. Sch. records.	May 20, 1915, continued accredited to July 1, 1916, 3 yr. course.
Brokaw Hospital School for Nurses, Normal, Ill., Lulu Justis, R. N.	1902	80	30	4	38	8	7	3 yrs.	Separate, comfortable home. Sleeping tents for nurses.	Nov. 11, 1914, deferred for data. Nov. 30, 1914, continued accrediting to Jan. 1, 1916, 3 yr. course.
Chicago Lying-in Hosp. School for Nurses, 51st and Vincennes Av., Chicago, Jessie F. Christie, R. N.	1895	30	19	3	(²)	3 yrs.	Obtain from Wesleyan University theory of dietetics. Give to Wesleyan University practical nursing theory.	May 20, 1915, continued accrediting for 4 mos. and 6 mos. course, instead of 3 mos. as formerly, to July 1, 1916.
Chicago Polyclinic Hos. Sc. for Nurses, 839 La Salle Av., Chicago, Mabel Morgan, R. N. (Mich.)	1891	135	58	5	206	19	7	3 yrs.	Obstetrics only. Affiliation and P. G. courses only. New hospital. Excellent dispensary service.	Jan. 6, 1915, continued accredited 3 yr. course to Jan. 1, 1917. Recommendations.
Chicago Union Hosp. School for Nurses, 830 Wellington St., Chicago, Martha Pippert, R. N.	1901	60	30	3	86	6	19	3 yrs.	Practical training both in Polyclinic and Henry's Hospital. Outside obstetrical service.	Accredited 3 yr. course continued to Oct. 1, 1916.
Children's Mem. Hosp. School for Nurses, 735 Fullerton Av., Chicago, Elsie L. Burks, R. N. (New York)	1908	175	50	7	31	3	6	3 yrs.	Obtain 1 yr. adult work Presbyterians, Chicago or Evanston. Give children's training to 9 Illinois schools and one Iowa school.	Oct. 9, 1914, continued accredited 3 yr. course to Oct. 1, 1915.
Colonial Hospital School for Nurses, Geneva, Ill., Maria McDaniel, R. N. (Conn.)	1909	25	9	2	1	3 yrs.	Obtain obstetrics 4 mos. Chicago Lying-in: children 3 mos. Children's Memorial.	New nurses home. Old home remodeled for maternity cases.	Nov. 11, 1914, continued accredited 3 yr. course to Jan. 1, 1916. Recommendations.

SURVEY OF ACCREDITED SCHOOLS FOR NURSES AND SCHOOLS PENDING ACCREDITING IN ILLINOIS—Continued.

School, location, superintendent.	Date organized.	Hospital capacity (beds).	Number pupils.	Number graduates on staff.	Total graduates to date.	Graduates in 1915.	Graduates registered in 1915.	Length of course.	Affiliations.	Special features.	Status.
Columbus Hospital School for Nurses, 2540 Lakeview Av., Chicago, Nellie McCann, R. N.	1903	150	45	3	86	15	3	3 yrs.	Oct. 7, 1915, continued accredited 3 yr. course to July 1, 1916. Recommendations.
Deaconess Hospital Henrietta School for Nurses, East St. Louis, Ill., Sister Lydia Buschman, R. N. (Mo.)	1895	50	13	2	3 yrs.	Management assumed July 1, 1915, by Southern Evangelical Deaconess Association.	April 5, 1915, deferred from continuation on accredited list. Recommendations.
Deaconess Hospital School for Nurses, Peoria, Ill., Emma B. McCall, R. N.	1899	50	23	2	20	3	3	3 yrs.	New hospital building, 1914. Nurses separate home.	May 20, 1915, continued accredited 3 yr. course to July 1, 1916. Recommendations.
Elgin State Hospital School for Nurses, Elgin, Ill., Alice Median, R. N.	1907	2,032	40	5	27	11	2 yrs.	Insane patients only. New home for nurses. Attendant's course 3 months.	Nov. 11, 1914, continued accredited 2 year course to Jan. 1, 1916. Recommendation.
Englewood Hospital School for Nurses, 6001 Green St., Chicago, Emelie Dahlgren, R. N. ...	1893	150	54	9	138	13	9	3 yrs.	Obtain practice 3 mos. children's at Children's Mem. Dispensary. N. W. Theory, N. W. University, six subjects.	Ground purchased for nurses home.	Jan. 6, 1915, continued accredited 3 yr. course to Jan. 1, 1916. Recommendations.

Evans-ton Hospital School for Nurses, Evans-ton, Ill., Ada Belle McCleery, R. N.	1898	130	50	8	81	8	15	3 yrs.	Obtain theory, North-western University, subject, chemistry.	Nurses graduate with Northwestern University students. Special contagious building; special maternity building. Excellent home for nurses. Housing conditions of 95 schools for nurses accredited and pending:	
Very good	35
Fair	10
Poor	20
Separate Home	63
In hospital or annex to hospital	32

BED CAPACITY OF 126 HOSPITALS HAVING SCHOOLS FOR NURSES CONNECTED.

8 hospitals, capacity 1,565 to 3,400 beds each. (7 hospitals for insane, 1 county hospital.)
6 hospitals, capacity 300 to 450 beds each.
4 hospitals, capacity 200 to 300 beds each.
20 hospitals, capacity 100 to 200 beds each.
37 hospitals, capacity 50 to 100 beds each.
44 hospitals, capacity 25 to 50 beds each.
7 hospitals, capacity less than 25 beds.
Total capacity of 126 hospitals, 29,347 beds.

INSPECTION AND ACCREDITING OF TRAINING SCHOOLS FOR NURSES.

Section 2 of the law provides—

* * * "The board may also outline and establish a course of instruction to be followed by accredited schools for nurses, as hereinafter provided, and a system of inspection of such accredited schools for nurses; and the board may amend or repeal such rules in its discretion."

Section 3 provides—

* * * "The board shall, from time to time, adopt rules governing the examination of applicants for registration not inconsistent with the provisions of the law, and shall adopt rules providing for and establishing a uniform and reasonable standard of maintenance, instruction and training to be observed by all schools for nurses which are on, or whose application is pending to be placed on the list of accredited schools for nurses hereinafter provided for, and also for the inspection by said board of such schools for nurses. By reference to the compliance or noncompliance by schools for nurses with such rules, and the general standard of efficiency or inefficiency of management and instruction maintained by the same, the said board shall, by conducting inspections in accordance with its rules, determine the eligibility of, and designate the schools for nurses, to be placed on or to be withdrawn from, a list which shall be known as the list of accredited schools for nurses, which list shall at all times be kept on file in the office of the secretary of said board, where it shall be open to the scrutiny of the public at all reasonable hours, and a copy thereof shall be kept on file at the office of the Secretary of State."

The board continues to conduct its inspection of Training Schools for Nurses in accordance with the rules governing accrediting.

RULES GOVERNING ACCREDITING OF SCHOOLS FOR NURSES IN ILLINOIS.

1. The training school must be connected with a general or special hospital, having not less than 25 beds, and the number of student nurses shall not exceed one-half to one-fourth the number of patients, governed by the facilities for private or ward patients.

2. The principal of the training school shall be a registered nurse or eligible to registration.

3. The training school shall require of all applicants, proof of one year of high school or its equivalent; that they shall be not less than 19 years of age; of good moral character; of good physical and mental health and free from any habit rendering them unsafe to be entrusted with or unfit for the

care of the sick. Preference shall be given to applicants who have spent more than one year in a high school or college, and to those who have taken a partial or full course in domestic science in a recognized technical school.

4. The training school shall require a systematic course of at least three years training.

5. The instruction shall be both theoretical and practical.

The theoretical work shall be based upon the suggested course of instruction for the Training Schools for Nurses, as the minimum requirement.

INSPECTIONS OF SCHOOLS FOR NURSES, YEAR ENDED SEPTEMBER 30, 1915.

The following consecutive list of inspections made during the year, shows a total of ninety-seven visits to ninety-three schools for nurses. Only schools within the State are inspected and placed on the accredited list. The secretary spends fully one-fourth of the time actively engaged in this phase of the work. Other members of the board also inspect. Each accredited school and each school pending accrediting is inspected once every year. The board has adopted a plan of inspection and accrediting, whereby each quarter of the year is a separate unit. Terms of accrediting of one-fourth the number of schools expire on the first day of a given quarter and the annual inspection takes place sometime during the three preceding months.

FIRST QUARTER, OCTOBER 1, 1914, TO DECEMBER 31, 1914—43 INSPECTIONS AS FOLLOWS.

Date.	Schools.	City.	Inspector.
Oct. 2	St. John's.....	Springfield.....	A. L. Tittman.

NEW APPLICANTS FOR ACCREDITING.

The following eight applications for accrediting were received during the year:

- Rhodes Avenue Hospital School for Nurses, Chicago, October 29, 1914.
- St. Anne's Hospital School for Nurses, Chicago, November 2, 1914.
- St. Elizabeth's Hospital School for Nurses, Chicago, October 30, 1914.
- St. Francis Hospital School for Nurses, Peoria, January 26, 1915.
- South Shore Hospital School for Nurses, Chicago, February 1, 1915.
- Annie Durand Hospital School for Nurses, Chicago, February 2, 1915.
(Infectious.)
- Maimonides Hospital School for Nurses, Chicago, February 2, 1915.
- German Evangelical Deaconess Hospital School for Nurses, Chicago,
June 30, 1915.

ACTION OF BOARD ON SCHOOLS FOR NURSES YEAR ENDED
SEPTEMBER 30, 1915.

Total schools accredited September 30, 1914	70
Deferred continuation of accrediting	10
Deferred first accrediting	23
Continued accredited and reinstated	64
Accredited for first time	8
Total schools accredited September 30, 1915	72

RECOMMENDATIONS.

The visits of inspection have given the board an especially good opportunity to assist in details of training school management and improvement of course of training. Utilization and stimulation of facilities at hand are especially emphasized in increasing the phases and variety of practical nursing. Instruction is given in simple methods of keeping daily and permanent records, as well as methods of filing training school material. Superintendents of nurses express the opinion that personal conference with representatives of the board has no comparison in its superiority over correspondence regarding especial problems. They show a general desire to constantly improve their schools and are very favorably susceptible to suggestions and recommendations. In acting upon inspection reports, the board has given specific recommendations and suggestions to seventy-one (71) different schools. The recommendations and suggestions have been summarized to include:

Increase of practical phase of children's nursing	28
Increase of practical phase of obstetrical nursing	6
Definite practical term of diet kitchen experience	22
Increase of hours and subjects of theory	14
Decrease of hours of theory	2
Definite preliminary course in theory	3
Definite division of theoretical classes	4
Definite division of phases of practice	3
Lengthening of probation period	1
Establishing or improving training school records	21
Ten hour night duty instead of twelve	2
Improvement of form of application of pupils	5
Investigation of pupils with previous training	5
Proper maintenance of minimum age or educational requirement	25
Physical examination of pupils during probation	3
Against sending pupils on outside cases	4

Registered nurse superintendent of nurses	4
Additional graduate assistant	3
And miscellaneous as follows:	
Better housing of nurses.	
Nurses own text books.	
Enter pupils in groups.	
Increase bed capacity.	
Improve ratio nurses to patients.	
Term of special duty for pupils.	

RECOMMENDATION TO STATE HOSPITAL SCHOOLS FOR NURSES TO AFFILIATE WITH OTHER HOSPITAL TRAINING SCHOOLS.

Inasmuch as State hospitals for the insane give a two-year course of training to student nurses and obtain recognition on the accredited list of the Illinois State Board of Nurse Examiners for the two-year course; inasmuch as a very excellent three-months-attendants course is also given prior to entrance on the course of training as a nurse; and, inasmuch as the following phases of practical nursing is very limited in State hospitals—children's nursing, obstetrical nursing and surgical nursing with operating room technique—the board has made the following recommendation to Illinois State Hospital Schools for Nurses:

This board would consider a nine month's affiliation with some general accredited hospital school for nurses or one or more special accredited hospital schools for nurses in the subjects of surgical, children's and obstetrical nursing given in addition to the two-year course, to be sufficient reason to extend the accrediting to a full three-year course. In this manner, it would give credit for the three-months-attendant's course and graduates of such a three-year course would be eligible to State registration; whereas, now, they are obliged to obtain one year's additional training after graduation, and few avail themselves of this.

RECOMMENDATIONS TO ACCREDITED SCHOOLS FOR NURSES, REGARDING THE GIVING OF CREDIT TO APPLICANTS, WHO HAVE HAD PREVIOUS TRAINING IN A SCHOOL FOR NURSES.

The board, in an effort to eliminate a tendency of schools to admit pupils from other training schools without proper investigation, giving full credit to pupils for previous training, formulated the following recommendations January 17, 1915. These recommendations were distributed to accredited schools March 10, 1915:

I. Before acceptance, into an accredited school for nurses, due investigation should be made of all applicants who have had previous training as a nurse. These investigations shall be in respect to conduct, character, health, amount of class and lecture work, phases of practical work, adaptability, and length of time in training. They shall be made in writing, and copies shall be kept with replies on file for further inspection.

II. No applicant shall be promised a definite amount of credit for previous training until he or she has served a term of probation of at least three months.

III. The amount of credit given for previous training should be governed, in the judgment of the superintendent of nurses, by the applicant's knowledge and skill in practical service demonstrated in the probation period and by the amount of class and lecture work required in order to give the applicant in proper proportions of the various subjects, a minimum of 325 hours, as set forth in the standard curriculum of an accredited school.

IV. No credit shall be given for less than six months of previous training.

V. Full credit for previous training should only be allowed (1) to applicants presenting a satisfactory diploma of graduation from a school for

nurses connected with a general or special hospital in good standing, giving a systematic course of instruction, or (2) to student nurses of an accredited school which has gone out of existence prior to completion of course of training.

VI. No credit shall be given for any nursing experience other than that obtained as an enrolled student in a school for nurses connected with a general or special hospital, and giving a systematic course of training.

RECOMMENDATION ON INVESTIGATION OF PRELIMINARY EDUCATION OF APPLICANTS TO SCHOOL FOR NURSES.

At a meeting of the board, September 17 and 18, 1915, the following recommendation was approved for distribution to all accredited schools. Heretofore, the vast majority of schools were accepting without question, the statement of education made by the applicant. The minimum requirement of one-year high school is usually stated in the circular of information that a school sends in advance to prospective applicants:

Superintendents of nurses of accredited schools for nurses in Illinois shall collect satisfactory written credentials from former instructors, schools or colleges regarding preliminary education of all candidates for admission into the training school before final acceptance as a pupil. She shall keep these written credentials on file with applications to be exhibited on inspection.

EDUCATIONAL EQUIVALENT OF ONE YEAR OF HIGH SCHOOL.

The board feels that schools for nurses in Illinois are entitled to an interpretation of the educational equivalent of the one year of high school requirement. In order to place a fair and definite interpretation, the board has solicited the expert advice of the United States commissioner of education. The reply follows verbatim:

DEPARTMENT OF THE INTERIOR,
BUREAU OF EDUCATION,
WASHINGTON, September 18, 1915.

Miss Anna L. Tittman, Secretary, State Board of Nurse Examiners, Springfield, Ill.

MY DEAR MISS TITTMAN: Replying to your letter of September 13, 1915, addressed to the Commissioner of Education, which has been referred to this division for attention:

"Under separate cover, I am requesting the Division of Publications to send you copy of the Bureau of Education Bulletin, 1915, No. 7, 'Accredited Secondary Schools in the United States,' on page 8 of which you will find an authoritative definition of what constitutes a 'high school unit.' I believe it would be quite convenient, and entirely appropriate, for your board to recommend a statement of the 'equivalent of one year of high school' work based upon, or in terms of, this 'definition.'

"I take the liberty also of referring you to the report of the 'Committee on Revision of the Definition of the Unit,' published in the Proceedings of the North Central Association of Colleges and Secondary Schools; Vol. 1914, pp. 101-118.

"I believe it is the practice of certain normal schools to permit a specified number of years of experience in teaching to qualify candidates for admission to certain courses, but I do not recall any instance where clerical work or travel are advertised to serve this purpose. If it should seem to your board desirable to make provision for qualification along these lines, it would practically be necessary to grant discretionary powers to an administrative office, and require each case to be considered on its merits.

"If a definition of the equivalent of one year of high school work is formulated, as suggested above, it could be made to apply to the work of all classes of private schools mentioned in your letter.

"I regret that I am not able to give you any assistance on the problem of equating the work of foreign schools in terms of the requirements of public schools in the United States. Your letter, however, will be referred to Miss Anna Tolman Smith, the bureau's specialist in foreign educational systems.

"Miss Smith is at present absent on vacation leave. If, upon her return, it appears that she has material that will be serviceable to your board, she will communicate with you directly."

Very sincerely,

WILLIAM T. BAWDEN, *Specialist in Industrial Education.*

The definition referred to follows:

ACCREDITED SECONDARY SCHOOL DEFINED.*

An "accredited secondary school," as the term is used in this bulletin, is a school which is equipped to prepare students for colleges requiring at least 14 units for unconditioned admission and which has been investigated or approved for this purpose by one of the following agencies: A State officer of education, a university or college inspector or committee on admissions, an officer or committee of an accrediting association. Except in the case of certain of the Southern States whose high-school courses are based upon seven years of elementary training, it is understood that these 14 units represent secondary work above the standard eight-grade elementary school course. It is assumed that the curriculum of an accredited school represents four years of 36 or more weeks each; that at least three teachers give their whole time to high-school work; and that the school keeps up an adequate library and laboratory equipment.

UNIT DEFINED.

The following authoritative definition of the word "unit" has been made by the National Conference Committee on Standards of Colleges and Secondary Schools, which is composed of representatives of the National Association of State Universities, the New England College Entrance Certificate Board, the College Entrance Examination Board, the Association of Colleges and Preparatory Schools of the Middle States and Maryland, the North Central Association of Colleges and Secondary Schools, the Association of Colleges and Preparatory Schools of the Southern States, the New England Association of Colleges and Preparatory Schools, the Carnegie Foundation for the Advancement of Teaching, and the United States Commissioner of Education:

A unit represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work.

This statement is designed to afford a standard of measurement for the work done in secondary schools. It takes—

- (1) The four-year high-school course as a basis and assumes that—
- (2) The length of the school year is from 36 to 40 weeks; that—
- (3) A period is from 40 to 60 minutes in length; and that—
- (4) The study is pursued four or five periods a week;

but under ordinary circumstances a satisfactory year's work in any subject can not be accomplished in less than 120 sixty-minute hours, or their equivalent. Schools organized on any other than a four-year basis can nevertheless estimate their work in terms of this unit.

The Illinois State Board of Nurse Examiners therefore places the following interpretation upon the entrance educational requirement as specified in its rules governing the accrediting of schools for nurses:

One year of high school, or the educational equivalent thereof, shall equal at least three and one-half units of study above the standard eighth grade, or 36 to 40 weeks study of at least three and one-half subjects, each

* Bureau of Education Bulletin, 1915, No. 7.

week to consist of 4 to 5 hours of each subject. This may be obtained in private tutorage, public schools, ninth grade, academy, night school, normal school, business college, etc. The only technical experience accepted as an educational equivalent shall be one or more years of teaching experience. An entrance academic examination is not accepted as an educational equivalent, but is suggested where the tutorage has been of uncertain character.

RECOMMENDATION REGARDING DATING DIPLOMAS OF GRADUATES FROM SCHOOLS FOR NURSES.

A general tendency prevails among schools for nurses to confuse the date of the graduation exercises with the date of completion of course of training. A student nurse is a student nurse until she completes, not only her theoretical course but her practical course as well. She is not a graduate nurse until her terms in both are satisfactorily completed and her connection with the school in the capacity of an undergraduate is severed. If her diploma is dated on the day of the graduation exercises, it might signify a course that was more than three years or less than three years duration. Schools are urged to hold the day of completion of course as the date of graduation.

SUGGESTIONS ON CLASS ROOM EQUIPMENT.

Many schools are steadily improving in this respect, but others need guidance and suggestions. All class rooms should be at least provided with comfortable chairs, and if desks or tables are not available, the tablet arm-chair is suggested. Blackboards, skeletons, anatomical charts and manikins should always be found in schools for nurses—they form the nucleus for more elaborate equipment. Demonstration rooms should have at least one bed, with proper bedding, a Chase Doll or imitation, bandages or materials for making, table for demonstrating gynaecological positions, etc., various articles of enamel ware, rubber goods, glass ware and properly arranged duty trays, as those for temperatures, medicines, catheterization, lavage, etc. Elaboration however is not necessarily the most effective means of imparting knowledge, for often very simple and homely equipment gives a knowledge of improvising, a thing so greatly needed in efficient home nursing.

SUGGESTIONS REGARDING LIBRARIES.

In many schools for nurses the libraries are very limited or not adapted to the needs of nurses. A training school library is by no means satisfactory if made up of the most elaborate set of medical books and medical journals, yet this character of library is often exhibited with pride. A training school library should have plenty of nurses technical books but should not be entirely technical. The current literature, fiction and cultural works of music, art, drama, etc., should occupy a prominent place. The American Journal of Nursing and other magazines should be placed in the hands of pupils with outlines for required reading. Any school may in time have an enviable library by suggesting that pupils give five cents per week that otherwise would be spent carelessly.

SUGGESTIONS REGARDING NURSES' HOMES.

Quarters provided for pupil nurses in Illinois, range from the dormitory plan in attic rooms in the hospital, with poor light, poor ventilation, inadequate air space, falling plaster, no dressers, no mirrors, no

rockers, inadequate bath and toilet facilities, and no clothes closets or wardrobes to modern, separate, purposely designed nurses' dwellings having sun parlors, gymnasiums, diet kitchens and every form of comfort, with a special graduate-nurse housemother to contemplate personal needs and develop the social life. During the year, several hospitals in Illinois have built very comfortable homes for their nurses. Others are planning to build as soon as possible. To the latter the following suggestions are offered:

- Single rooms for nurses.
- One bath and one toilet for every six nurses.
- Comfortable beds—never sanitary couches.
- Study lamps.
- Every nurse her own clothes closet.
- Every nurse her own dresser.
- Every nurse her own bed.
- A reception room.
- A piano or victrola.
- A place to dance.
- A sleeping porch or roof.
- A diet kitchen.
- A sewing machine.
- Laundry facilities.
- Proper chaperonage.

SUGGESTED COURSE OF PRACTICAL TRAINING FOR TRAINING SCHOOLS FOR NURSES.

- Preliminary, 3 to 6 months.
- Medical, 3 to 6 months.
- Surgical, general, 6 to 12 months.
- Diet kitchen, 2 to 3 months.
- Operating room, 3 to 4 months.
- Obstetrical nursing, 3 to 4 months or special duty, 8 cases as a minimum or 20 cases on general duty.
- Children, 2 to 3 months or equivalent—a rate of 180 to 240 nursing days per nurse in three years, as a minimum.
- Special duty, 2 to 3 months.
- Supervising, 2 to 3 months.
- Vacations, 2 to 3 months.
- Open time, dispensary, drug room, laboratory, office, district service, anaesthetics, nervous and mental, 3 months.

PUBLIC HEALTH COURSES.

During the past year a considerable number of schools for nurses in Illinois have inaugurated public health courses, or social service courses of one to three months, for pupils in their last year of training. The board is in hearty accord with this plan providing certain characteristics are included. Pupils in this phase of training, as in any other, should be under constant graduate supervision. Pupils should be required to return to the hospital for meals and sleep. Hours of recreation should not be discontinued. This course should not be allowed to interfere with the regular class and lecture work.

A SUGGESTED COURSE OF INSTRUCTION FOR THE TRAINING SCHOOLS FOR NURSES.

This outline was prepared by the Illinois State Board of Examiners of Registered Nurses and presented to Illinois schools for nurses, July 1, 1910, after a careful study of the courses of training outlined by twenty-seven schools for nurses in Illinois. It has proved to furnish an excellent working basis and has been adopted as the minimum requirement of theory for accredited schools, by the Illinois State Board of Nurse Examiners, acting under the present law.

PRELIMINARY COURSE.

FIRST FOUR WEEKS.

	Hours.		Hours.
1. Requisites of a woman taking up the study of a nurse as a profession. Talk by superintendent	1	3. Cleaning, carbolizing and making empty beds. Changing of linen on beds	1½
2. Personal life of a nurse. On duty. Ethics of. Talk by superintendent	1	4. Simple nourishments. Hospital diet lists. Times of feeding. Methods of feeding. Preparation of the following, to be served to patients: Milk, cold and hot. Malted milk, cold and hot. Lemonade. Beer. Gruel. Eggnog. Orangeade. Rootbeer. Sodapop. Buttermilk. Fruit juices. Broth	2
3. Personal life of a nurse. Off duty. Ethics of. Talk by superintendent	1	5. Care of patients' backs, mouths, nails. Evening care of convalescents. Evening care of bed patients	1½
4. Care of nurse's bedroom, bathrooms, etc., at nurses' home	1	6. Making of occupied beds. Positions of patients. Fracture beds	1
5. Charts, charting. Attentions to be extended to the newly admitted patient. Care of patients' clothes. Care of clothes closet. Care of patients' valuables. Attentions to be extended to the discharged patient	2	7. Temperature, pulse, respiration	2
6. Mechanism and care of wheelchairs, wheelcarts, bedside tables, bed rests. House telephones, signals, fire drill, etc.	1	8. Baths for cleanliness: Tub, bed, foot, spray, Sitz baths. Hair washing	2
7. Heating and ventilating systems used in the hospital..	1	Hygiene for nurses. McIsaac, chapters IV, V, VI, VII, VIII	3
8. Care of vacant rooms. Preparation of private room for the admission of patient ..	1½	Oral review on 16 headings..	1
Hygiene for nurses. McIsaac, chapters I, II, III	5	Written review on 16 headings	1
Total number hours of class work	14½	Oral review on hygiene	1
		Written review on hygiene..	1

SECOND FOUR WEEKS.

1. Care of refrigerators, bathrooms; care and disinfection of bedpans, urinals, waste buckets, rubber goods, sputum cups. Care and disinfection of discharges. Preparation for the laboratory of various specimens, such as feces, urine, sputum
2. Care of pillows, mattresses and clean linen. Folding of linen. Care of soiled linen.

SUGGESTED APPLICATION FORM FOR ENTRANCE.

(To be filled out in applicant's own handwriting.)

.....HOSPITAL TRAINING SCHOOL FOR NURSES.

1. Name of applicant in full
2. Address
3. Nationality Color
4. Age last birthday..... Date of birth..... Place of birth.....
5. Condition of life (married, single, widow or divorced)
 Number and ages of children
 How are children provided for
6. Are you free from domestic responsibilities, so that you will be allowed
 to carry on your course of training without interruption?
7. Name and address of nearest relative or friend to be referred to in case
 of illness, etc.
8. If you are at present employed, state where, by whom and in what
 capacity
9. State where, how long and in what capacities you have been employed
 heretofore

10. Have you ever been in any Hospital, Asylum or School for Nurses?.....
 Where, how long and in what capacity, reason for leaving, name of super-
 intendent of Hospital or Training School in each instance?

11. Are you connected with any church?..... State denomination of
 church and where located
 Name of pastor
12. Give names and addresses of two responsible persons, not relatives, who
 have been personally acquainted with you for several years.
 Name..... Name.....
 Address..... Address.....
 Known how long..... Known how long.....
13. What are your reasons for taking the course of training to become a
 Graduate Nurse?

14. It is necessary for this School that you state very definitely the extent of your education in the following questions?

Where educated (public, private or parochial schools)

.....

Total number of years in school?..... Age on leaving school?.....

What grade have you completed in the common schools?

What subjects were you taught the last year?

.....

What school and where located?

Have you attended High School?..... What school and where located?

..... How long did you attend?.....

What course did you complete?..... Are you a graduate?.....

Have you attended Business College, School of Domestic Science, or other technical school or academy?..... Where?.....Length

and character of course you completed..... Are you a graduate....

Have you attended college, seminary or university?..... What college

and where located?..... How long did you attend?.....

What course did you complete?..... Have you received a degree?....

What degree?..... What subjects have you completed in

private tutorage?

What certificates of education do you hold?

.....

Give name and address of your last teacher who can certify the extent of your education

15. Health. Give height (without shoes)..... Weight.....

Are you strong and healthy?..... Are your eyesight and hearing

perfect?..... Are your teeth in good condition?.....What

illnesses have you had?

Have you completely recovered?..... Have you ever been operated

upon?..... For what?..... Date of operation.....

Have you completely recovered?..... Have you any physical defects?

.....If so, what are they?..... Have you any tendency

to throat affections?..... Have you any tendency to pulmonary

disease?..... Have you had any uterine disease?..... When were

you last vaccinated?..... (A physical examination will be made by the training school physician at the close of the probation period.)

16. If accepted, I will in all respects comply with the regulations of the School and Hospital.

SUGGESTED FORMS FOR TRAINING SCHOOL RECORDS.

There is a demand for a simple method of keeping daily and permanent training school records. The board has devised the accompanying suggested forms with the belief that they will meet a long felt need. These records can be modified to fit any school. Training school records should be kept daily, both in theory and practice. From the daily records permanent summaries should be kept. An explanation of the *Illinois State Board Records for Training Schools for Nurses* follows:

Form A—Daily Record of Practice. This is nothing more nor less than an ordinary time or roll book, purchasable at any book or stationery store, in any size or binding desired. A school may use one book for each class or one book for the entire school, depending on the size of the school. The illustration explains that one double page is used each month. Services are abbreviated for convenience and dittoed until a change in service is made. The numbers indicate days of the month. The totals are made for copying into the permanent record. If one book is used for each class it will be sufficient to carry the class through the three year course. Night duty is recorded in red ink.

Form B—Daily Record of Theory. This also is a time or roll book. In daily records of theory, each class should have one book which will carry it through the entire three year course, one page being used for each subject. Subjects which run over the allotted space for 31 hours may be continued on another page. The subdivisions of the main subject are written after each date of the lesson, thus affording a complete detailed outline, and convenient memoranda for having absent pupils make up subjects they missed. The totals are—as in the case of the totals of practice—intended to be transcribed to the permanent record. Subjects may be indexed in front or back of book.

Form C—Permanent Record of Theory and Practice. In the past, permanent records have often been too detailed, yet not showing the most important data. Permanent records should show a summary of the course of each nurse as an individual, name to be indexed alphabetically in front or back of book and names entered in book in order of entrance of pupil into the school. Every pupil, whether she remains in the school one day or three years, should be entered on the permanent record. Records of dismissed or resigned pupils serve well in answering inquiries from other schools, where the pupil may later apply. This is of especial importance on account of changes that may be made in the office of superintendent.

These records may be made into book or card form, as desired. Books, if properly indexed are as useful and as convenient as cards and the risk of loss of a record is practically eliminated. In case a school goes out of existence, an interested trustee or physician will keep a book record, when he might not care to assume the responsibility of a card system and the necessary filing cabinets. Book records are more permanent in character than cards. However, the card system has its desirable features, especially, in that the record may thus be filed with pupils' applications, recommendations and other material. The size of the suggested form given here for a permanent record is the exact size needed for either book or card. The book may be single or double page.

that is, one page may be used for theory and the opposite page for practice, or one page may be large enough for both. A card would be regulation letter size, with record of theory on one side and record of practice on the reverse. These cards should be filed into a vertical letter file of wood or steel. They should be arranged alphabetically and according to class.

Schools are advised not to have printed on the record, the names of months nor subjects of theory, as these are subject to change.

The grand total of practice is given in days, then reduced to months by dividing by thirty. Blank spaces are left for phases of practice to be added as the course develops. The abbreviations for record of efficiency in practice, have the usual interpretation, ie, E (excellent), V.G. (very good), G. (good), F (fair), P (poor), etc. In this particular and throughout the entire record the A. B. C. system may be used.

SECTION VI—OFFICE ADMINISTRATION.

OFFICE ADMINISTRATION.

REORGANIZATION OF THE FILING SYSTEM.

The board is indebted to the pioneer members of the Board of Examiners of Registered Nurses, for having instituted good methods of filing. The systematically arranged collection of data has been invaluable for reference. However, the accumulation of material has outgrown all proportions and a reorganization of filing became necessary during the year. This has been accomplished by introducing the automatic filing system, for the general correspondence both in current and transfer vertical files. General correspondence is also cross indexed. For correspondence with schools for nurses, the 60 subdivision alphabet, with miscellaneous folders is found very satisfactory and has been newly installed, both in current and transfer vertical files. Correspondence of applicants for registration continues to be filed with applications, in document envelopes and document files. In the new system, printed matter and documents, as inspection reports, laws, announcements and catalogs have been separated from the correspondence and filed in three hundred numerically arranged bellows envelopes in vertical files. It has been card cataloged under a 250 subdivision alphabetical index with full list of contents of envelopes recorded on library cards. It is the plan to catalog all clippings and pamphlets in the same manner during the coming year. Pamphlets will be cataloged according to title, subject and author.

In the reorganization process it was necessary for the secretary to personally rearrange and handle every paper, letter and document collected in the eight years of existence of the department. The new system is very effective and satisfactory and is recommended to organizations with similar business.

The character of these data in our files is unique, there being no other State department or private agency in Illinois with a similar collection on the subject of nursing. It is constantly referred to in answering inquiries of private individuals, State and National organizations, as the American Red Cross, the National Organization of Public Health Nursing, and state boards of nurse examiners of other states. During the past year, Dr. John Hornsby, chairman of the Illinois Committee of the Council on Medical Education of the American Medical Association, in a movement to standardize hospitals for the training of internes, was given access to our files and obtained very useful information.

The card system of the enrollment of 4,800 registered nurses has been improved by substituting a 250 subdivision alphabetical index for the straight alphabet.

The new numerical and alphabetical register, large enough to accommodate the enrollment for twenty years has been completed.

ENGROSSING AND MULTIGRAPHING REFORM.

An additional stenographer has been made available by the appropriation of the last General Assembly. This assistant has a knowledge of engrossing and the certificates are now prepared in the office with greater economy and with greater expediency than when the work was done by a Chicago firm.

Formerly the preparation of examination questions cost the State about \$25 each examination. This item has been greatly reduced by the purchase of a simple multigraphing device for \$10 with a cost of \$10 per year for maintenance.

Total.....	\$42,854 45	\$18,315 60	\$24,538 85

* Includes encumbrance secretary's salary, three months, \$450.00.

Respectfully submitted,

ANNA L. TITTMAN, *Treasurer.*

REPORT ON AUDIT OF CASH RECEIPTS AND EXPENDITURES FROM APPROPRIATIONS OF THE BOARD OF NURSE EXAMINERS, SPRINGFIELD, ILLINOIS, FOR THE YEAR ENDED SEPTEMBER 30, 1915.

"October 26, 1915.

Honorable James J. Brady, Auditor of Public Accounts, Springfield, Illinois.

DEAR SIR: As instructed, I have audited the cash receipts and expenditures from appropriations of the Illinois State Board of Nurse Examiners for the year ended September 30, 1915.

I verified the cash receipts by checking the entries in the Cash Book with the stubs of the receipt books; and also proved the footings of the Cash Book.

I vouched the disbursements made from appropriations by reference to duplicate vouchers.

The salary of secretary of this board has not been paid since June, owing to an injunction, so I have listed the three months' accrued salary as an encumbrance against the appropriation, in order to show the free available balance.

Suggestions made by me last year in reference to supporting data for vouchers have been followed, and the records of this department have been kept in an excellent manner.

I submit various statements, as indexed, which contain full detail of the cash receipts and expenditures from appropriations during the year under review, and the balance at its close.

Yours very truly,

UNITED STATES AUDIT CO.,
(Signed) HENRY L. HERTZ, *President.*

(Signed)

Supervised by:

WHITNEY B. FLERSHEM,

Certified Public Accountant."

INDEX.

Report on audit of the cash receipts and expenditures from appropriations of the Illinois State Board of Nurse Examiners for the year ended September 30, 1915:

Exhibit

"A" Cash receipts and disposition thereof.

"B" Appropriation balances and expenditures.
